

# product overview

Mokveld provides the gas and oil industry with expert knowledge and highly advanced engineered valve systems for critical control and safety applications.

## Safety products

**Axial on-off valve (HIPPS)**  
balanced piston valves for special applications

**Axial check valve**  
fast acting non-slam protection for critical applications

**Axial surge relief valve**  
pilot activated surge protector for liquid applications

## Control products

**Axial control valve**  
streamlined flow path design for demanding applications

**Angle choke valve**  
versatile heavy duty valves for severe applications

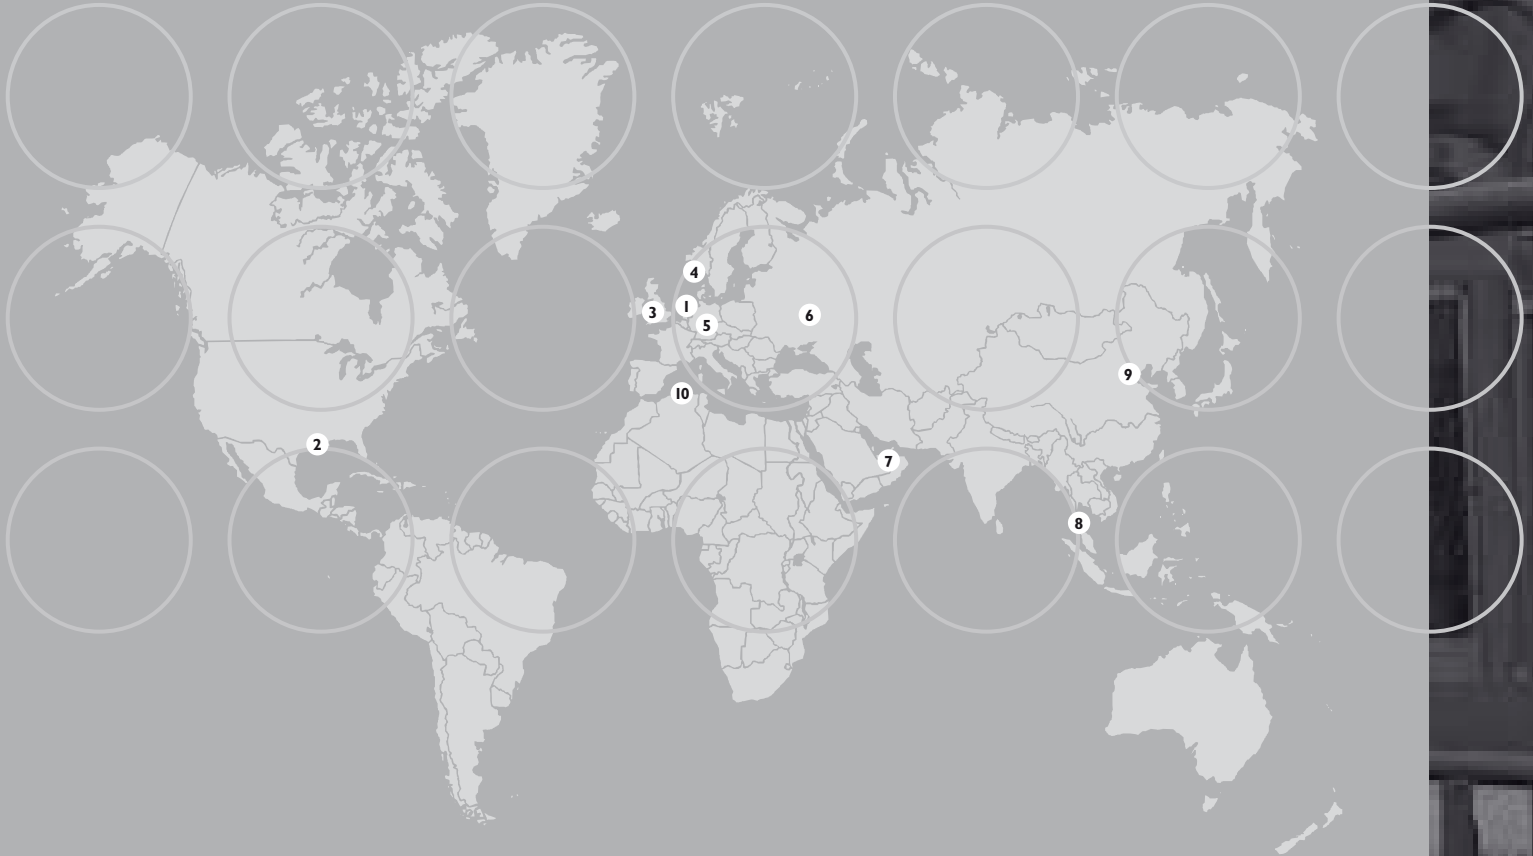

## Company profile

Mokveld offers high quality valves. These valves are the culmination of generations of ongoing, high quality research, and an in-depth knowledge of our customers' processes and operating practices. As a result, we can assist you to:

- increase production
- decrease operational and life-cycle costs
- enhance power savings

Mokveld's valves can be used safely in severe conditions, thanks to their high quality and reliability. What's more, our customers can rely on global service and support capabilities. This enables us to meet your needs, wherever in the world you are.

# global network - supported locally
